This is certainly a very singular state of affairs, and the public would seem to have a right to know more about it. We trust Mr. Bowman will continue his investigations until he is enabled to give something more than "a conjecture" as to what disposition has been made of the paper purchased by government. Mr. Bowman recommends, hereafter, that but one grade of paper be used for the printing of the public documents, and that this be super-calendered and weigh forty-eight lbs. to the ream. It seems, from a table presented, that the government has been paying for forty-two pound paper as high as \$8 32 per ream, and for forty-five pound paper, \$6 13. A London Divorce Case. A recent divorce trial in London is thus summed up in the Times:

Mrs. Marchmont was formerly a Mrs. Lockett. Mr. Lockett, a tavern keeper, in the course of nature died, leaving behind him this widow, who, as it appears, became entitled after his decease to the very comfortable sum of \$50,000. This widow at the time Mr. Marchmont paid his addresses to her was 50 years of age, and partial to sherry. Mr. Marchmont was a widower, as the lady was a widow, but he had children by his former have tried my genuine Electric Oil. marriage; she had none. All others are mere deceiving nosgains from literary sources he made up an income of trums. something like \$1,000 a year. He appears to have considered that a union between himself and Mrs. Lockett would be an excellent arrangement, although the lady was 14 years older than himself. He was successful in his suit, it was agreed between

them that he was to give up his chapel—that he should generally. be at the charge of his own personal expenses—that he should educate and clothe his children, and pay all costs of a carriage and pair of horses. Mrs. Marchmont's property, on the other hand, was to be entirely settled on herself, but she engaged, on condition that her suitor would give up his chapel, that she would build for him a Protestant church, which she would attend with his family. The document, dated July 10th, 1857, in which Henry Marchmont devotes himself to eternal perdition, if he should ever during her coverture in any way attempt to meddle with his wife's fortune, is probably unprecedented as a sample of eager blasphemy. It is as entirely discreditable to the man that could write it as it is peculiarly suited. Mr Marchmont, however, appears to have soon had good cause to repent the precipitancy with which he had risen to the golden fly; his married life was one scene of perpetual strifebut of swearing, cursing, struggling, chasing his wife about, and of behavior so scandalous on both sides that it is difficult to say whether husband or wife should be more loudly condemned. Mrs. Marchmont's matin and evening song was that her husband had married her for N. B .- \$1 00 and 6 postage stamps enclosed to any auher money alone; which was true enough. Money, however, she would not let him have; if his

Then the "drooping flower" wanted to be refreshed with a golden shower, and there was a fresh disturbance. In cabs, in police stations, at the house of relatives and friends, the same kind of scenes, interlarded with oaths and blasphemy, were of constant occurrence. The result was the trial of which we have recently been compelled to give a report in our columns. REVIEW OF THE WILMINGTON MARKET, FOR THE WEEK ENDING DECEMBER 30TH, 1858.

Owing to the Christmas holidays but very little has been done in out-door business since our review of Thursday; prices of leading articles, however, remain about the same. Below will be found a report of all the transactions we have fill orders—50 a 52 cents p bushel.

STOMACH OR LIVER, Such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic, and Neuralgic Affections, it has in numerous instances proved highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Borhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our father-land scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally, instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor

NOTICE.—Whoever expects to find this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a grateful aromatic cordial, possessed of singular remedial properties. CAUTION: The great popularity of this delightful Aroma has induced many imitations, which the public should guard against purchasing. Be not pursuaded to buy anything else until you have given Bærhave's Holland Bitters a fair trial. One bot-

tle will convince you how infinitely superior it is to all these
